

ETHYLENE OXIDE, RADIATION, AND MOIST HEAT

Pace Analytical Life Sciences performs a full array of laboratory services in support of sterilized products and sterilization validation.

Ethylene Oxide

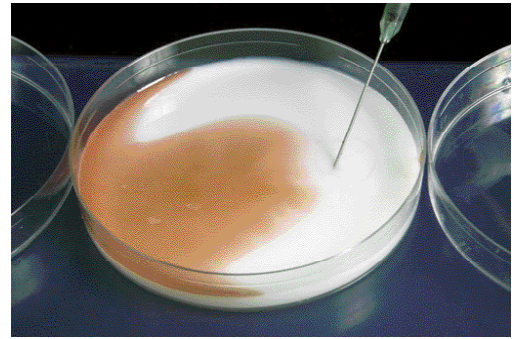

- Bioburden - ISO 11737
 - Bioburden method validation
 - Bioburden testing
- Test of sterility - ISO 11737
 - Method validation
 - Routine testing
- Biological indicator testing
- Ethylene oxide residuals
 - ISO 10993-7
 - FTIR methodology for low level analysis
- Endotoxin testing – USP <85>
- Material testing

Radiation

- Bioburden - ISO 11737
 - Bioburden method validation
 - Dose setting/dose audits
- Test of sterility - ISO 11737
 - Method validation
 - Dose setting/dose audits
- Endotoxin testing – USP <85>
- Physical and functional testing
- Material testing

Moist Heat

- Biological indicator testing
- Sterility test – USP <71>
- Endotoxin testing – USP <85>
- Material testing
- Particulate Testing

Pace Analytical Life Sciences operates two state-of-the-art laboratories totaling over 60,000 square feet of laboratory space: one in Oakdale, MN; the other in San German, Puerto Rico. Our labs are cGMP-compliant, FDA established, DEA registered and ISO/IEC 17025:2005 accredited.
