PROFESSIONAL STAFFING SERVICES

INSTRUMENT SALES & SERVICES

Working Together to Protect Our Environment and Improve Our Health

From our investment in laboratory facilities, technology and personnel – *to our extensive experience in environmental testing* – we are dedicated to providing consistent, reliable analytical services to our clients. Pace Analytical operates a network of environmental laboratories and service centers – providing project support for thousands of industry, consulting, engineering and

government professionals. At Pace, we’re working together to protect our environment and improve our health. Every day our employees demonstrate their commitment to a cleaner, more sustainable environment—*one that supports a better, safer and healthier life for everyone.*

Why Choose Pace Analytical?

- Nationwide Coverage and Locations (*Certifications for U.S. and Canada*)
- Full Service Environmental Capabilities
- Major National Account Program Team
- 24-Hour Emergency Response Services
- “One Stop Shop” Services (e.g., air toxics, aquatic toxicity, dioxin analysis, low level mercury, radiochemistry and more)
- Federal, State or Province Regulatory Knowledge
- Flexible Response to Demand
- On-time Delivery
- Innovative Test Reports and Specialized EDDs
- Single Point of Contact / Dedicated Project Management
- Customized Bottle Orders
- Convenient Courier Services
- Quality Systems Training, Audits (external and internal)
- Extensive Formalized Safety Program
- Continuous Improvement Training for Process, Productivity and Performance

Commitment and Responsibilities

Pace Analytical enjoys close working relationships with many prominent environmental consulting firms, maintains key supplier partnerships with several major industrial organizations and operates one of the most diversified analytical laboratories in the U.S. and Canada.

Because of evolving regulatory, legal and social pressures to improve the environment, Pace Analytical is committed to providing the latest in science and technology. By consulting with various regulatory bodies and industry experts – and maintaining active memberships in professional organizations – we can ensure that our operating procedures, analytical data and quality service programs support new industry requirements and our clients’ changing needs.

One of the most critical components to satisfying our clients’ expectations is the investment in our technical staff and project management team.

Project planning is critical to producing quality results, on time delivery and fiscally responsible project management. We work closely with our clients’ personnel to coordinate the execution of all analytical project requirements from inception to final review. For convenience and consistency, we assign a dedicated point of contact to each client or program.

PacePort: Online Data Management

Pace Analytical provides convenient online data access and report management services to enable better communication and quicker access to your project-critical information—24/7.

PacePort is a powerful online data management tool designed exclusively for our customers. With up-to-the-minute access to project data from your desktop or laptop, you have a quick and reliable resource for obtaining the test information you need – *when you need it.*

Environmental Field and Analytical Support

- Air Emission/Stack Testing
- Air Quality Monitoring
- Alternative Fuels, Ethanol and Biomass
- CERCLA and RCRA Support
- Consumer Confidence Reports
- Drinking Water (SDWA)
- Bottled Water (IBWA)
- Ecological Risk Assessments
- Environmental Impact Studies
- Federal Program Support, DOD, DOE and USACE
- Groundwater Monitoring
- Hazardous Waste Characterization
- Landfill Monitoring
- MACT, NESHAP, NSPS and Title V Support
- Mining Services (Analytical)
- Permitting and Compliance Monitoring
- Property and Manufacturing Site Investigations
- Commercial Real Estate Transactions
- Remedial Investigation and Feasibility Studies
- Treatment System Evaluation and Optimization
- Toxicity Reduction Evaluation Studies
- Underground Storage Tanks
- Wastewater/Stormwater NPDES Monitoring

Specialty Environmental Services

Laboratory Services

- Air Toxics
- Aquatic Toxicity
- Biological Tissue Analysis
- Dioxin/Furans
- Explosives/Perchlorates
- Flame Retardants
- Low Level Mercury
- PCB Congeners
- Perfluorochemicals
- Pharmaceutically Active Compounds
- Radiochemistry
- Soil Vapor Intrusion
- NSF Water Supply and Treatment Products

Field/Mobile Laboratory Services

- CEMs, CGA and RATA
- VOCs by Gas Phase FTIR and GC
- Bioattenuation Parameters

Non-Environmental Services

Laboratory Operations and Support Services

- Instrument Services, Repair and Maintenance
- Equipment Calibration and Metrology
- Instrument Sales and Parts Service
- Scientific and Professional Staffing
- E&HS Chemical Regulatory Data Management

Certifications and Experience

All Pace laboratories are NELAC accredited and certified to cover most jurisdictions.

Continuous Improvement and Training Program

Through an integrated approach for continuous improvement, we are committed to a training program for all project management, technical and support staff. The *Pace Yourself Program* facilitates a partnership between the employee and management to support the professional growth of every staff member at Pace. All training activities are managed through a central *Learning Management System* that provides program communication, implementation, tracking and documentation. Pace's commitment to training ensures leadership in analytical testing and confidence to provide the highest level of experience, compliant data and quality services.

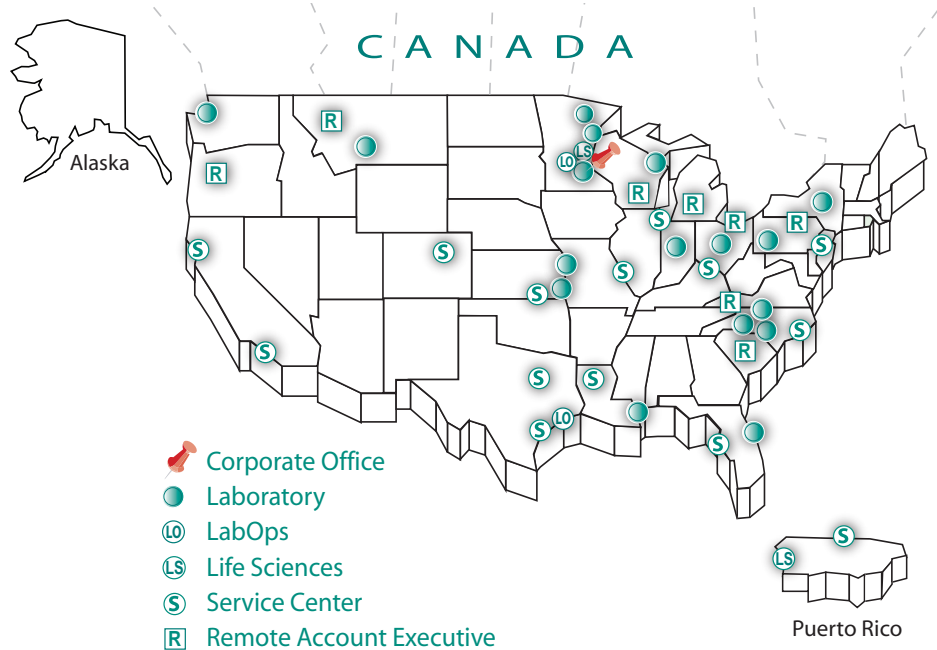

*Providing Environmental Testing Expertise
that Meets Today's Global Demands
for Cleaner Land, Air and Water.*
