

Pacelabs eQuip™ is an easily accessible portal into the inventory offered through our Instrument Support Group (ISG), a division of Pace Analytical Services, Inc. Equipment available through Pacelabs eQuip Includes:

- Refurbished chromatography, inorganic and dissolution instrumentation with extended support
- Previously-owned “as is” general laboratory equipment

	Refurbished by Pace’s Instrument Support Group	As-Is Instrumentation
Summary	Reduced cost to the customer compared to new. System will function at or above original manufacturer’s operating standards.	Low front end cost, with potential risk to the buyer.
Types of Equipment	GC, GC/MS, HPLC, UPLC, LC/MS, LC/MS/MS, Dissolution, ICP, ICP-MS	General Lab Equipment, Specified “As Is”
Condition	Excellent Condition – meets or exceeds specifications of manufacturer. Customized to match each request.	The condition of the instrument is exactly how it is described in the advertisement.
Preventative Maintenance	Thorough preventative maintenance is performed and all sample path components are replaced.	No preventative maintenance has been performed nor have any components been replaced (unless otherwise noted).
Repairs	All repairs and major parts replacement are completed prior to the customer receiving the instrument.	Any major repairs or major parts needed to restore the instrument to working condition are the responsibility of the customer.
Testing, Calibration, Qualification	Instrument passes Qualification testing to ensure it meets or exceeds specifications outlined by the OEM. Includes qualification certificate.	Instrument is generally not calibrated or tested for accuracy in its intended environment (unless otherwise noted).
Cost	Savings compared to new. Cost reflects the quality of Pace’s refurbishment process and the care described here.	Very low up front cost!
Warranty	Pace provides complete warranty and optional installation, qualification and familiarization training.	No warranty is provided to the customer.
